DETAILED ACTION

1. This Office Action follows a response filed on May 30, 2006. Applicants have amended claims 1, 3 and 5, claim 31 has been added, claims 2 and 4 have been cancelled.

2. In view of the amendments, objection of claims 2 and 5, rejection under 35 U.S.C. 102(b) as being anticipated by Persinski and rejection under 35 U.S.C. 102(b) as being anticipated by Neff have been withdrawn.

3. Applicant's election with traverse of Group I, claims 1-5 in the reply filed on May 30, 2006 is acknowledged. The traversal is on the ground(s) that according to PCT Rule, claims of different categories with common special technical features do not lack novelty. This is not found persuasive because the claimed common special technical feature in all claims is a polymeric composition containing acrylonitrile and 2-acrylamido-2-methylpropanesulfonic acid, and this common special technical feature lacks of novelty.

The requirement is still deemed proper and is therefore made FINAL.

4. Claims 1, 3, 5 and 31 are active.

Claim Rejections - 35 USC § 102

5. The rest of this section of Title 35 U.S.C. not included in this action can be found in a prior Office Action.

6. Claims 1, 3, 5 and 31 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Nishino et al. (JP 05-279426).

Nishino discloses a polymer comprising (A) at least 85 wt.% **acrylonitrile**, (B) 1-15 wt.% **2-acrylamido-2-methylpropanesulfonic acid** and/or its salt and (C) 0-14 wt.% a preferably methyl acrylate, having excellent resistance to hot water whitening at temperature at least 90°C. The blending ratio is preferably at least 90 wt.% component A, 2-10 wt.% component B and 0-8 wt.% component C (abstract).

Therefore, all the limitations of claim 1 and dependable claims 3, 5 and 31 are expressly met by Nishino.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
